SAFETY NOTICE: We recommend installation be done by a professional or persons with sound mechanical knowledge.

WARNING: These instructions are a general guide for installation. SuperSprings International (SSI) assumes no liability for the actual installation process. Consumers and installers should apply common automotive safety practices when raising and working on any vehicle. **Do not put yourself in a position where, if the vehicle were to move unexpectedly, you may be injured.** SSI's products are designed to improve vehicle ride quality. Do not load any vehicle beyond the manufacturer's specifications.

Never exceed the manufacturer's Gross Vehicle Rating (GVWR) located on your vehicles identification tag.

BEFORE INSTALLATION: Ensure the vehicle is on a hard level surface, the parking brake is ON, with the ignition OFF, and place chocks in front of and behind the tires to prevent the vehicle from moving.

DURING AND/OR AFTER INSTALLATION: Ensure emergency brake cables are not touching the SSI products. Secure any cables out of the way with zip ties or by re-routing. Ensure all A/C lines, brake cables, and frame are clear of contact or interference.

SSR-211-40/47/54

INSTALLATION

1. Park the vehicle on a hard, level surface and engage the emergency brake. Place chocks in front and behind wheels to prevent rolling. Observe all safety precautions and wear safety glasses.
2. Raise the rear of the vehicle allowing the axle to hang freely and rest the frame on the safety jack stands rated for the weight of the vehicle. Removal of the rear wheels is optional.
3. Starting on the driver side, remove the existing factory bump stops from the underside of the frame.
4. Add a drop of Blue Thread Locker to the threads of the M8 x 50mm FHCS [ITEM E] and secure the SumoSprings [ITEM A] and two ½" Spacers [ITEM F] to the Mounting Bracket [ITEM B] using an Allen wrench.
5. Position the Mounting Bracket [ITEM B] with the SumoSprings [ITEM A] offset to the rear of the vehicle. Attach the completed assembly to the frame and secure it in place with the M8 Top Lock Nuts [ITEM C] and 5/16 Flat Washers [ITEM D].
6. Repeat steps 3 through 5 on the passenger side of the vehicle.
7. Raise the vehicle, remove safety jack stands, and carefully lower vehicle to the hard surface. Remove the chocks in front and back of wheels.
8. Register the warranty for your SuperSprings International part. A warranty card can be found in the box your part came in.
